

ANCHORAGE SCHOOL DISTRICT
ANCHORAGE, ALASKA

ASD MEMORANDUM #121 (2007-2008)

December 3, 2007

TO: SCHOOL BOARD

FROM: OFFICE OF THE SUPERINTENDENT

SUBJECT: 2007-2008 ETHNICITY REPORT

ASD Goal: *Ensure public accountability through effective communication with students, staff, parents, community and government at all levels.*

PERTINENT FACTS:

Today 50 percent of the students in the Anchorage School District are ethnically diverse, compared to 13 percent in 1976. Of today's ethnic minority population, the multi-ethnic (13%) category is the largest, followed by the Asian/Pacific Islander (12%), Hispanic (10%), Alaska Native/American Indian (9%), and African American/Black (6%) groups. Last year, the Alaska Native/American Indian category was the largest followed by Asian/Pacific Islander. The following table compares 2006-07 and 2007-08:

Race/Ethnicity Comparison: 2006-07 and 2007-08

Race/Ethnicity	2006-07	2007-08
White	54%	50%
African American or Black	7%	6%
Alaska Native or American Indian	13%	9%
Asian or Pacific Islander	11%	12%
Hispanic	6%	10%
Multi-Ethnic	8%	13%
Total Ethnic Minority	46%	50%

This year all students and staff were asked to re-identify themselves, racially, using the new categories developed, and required, by the federal government. Students were asked to do two things: 1) identify whether or not they were Hispanic, and 2) to select the categories which described their race/ethnicity (more than one could be selected). This is very different from what was allowed in the past. Prior to this year, students were given a list of racial/ethnic

categories and allowed to choose the one which best described their race/ethnicity.

Guidance from the Alaska Department of Education and Early Development was used to interpret responses to the two questions. Students who indicated they were Hispanic were given that as their racial/ethnic category. Students who made more than one selection were placed in the multi-ethnic category. Students who selected one category were placed in that particular racial/ethnic category. As a result of the federal changes the numbers of students in the categories have changed dramatically.

There were decreases in the Alaska Native/American Indian (2,312), White (2,109), and African American/Black (681) student categories. There were increases in the multi-ethnic (2,268), Hispanic (1,884), and Asian/Pacific Islander (384) categories. It appeared quite a few students took advantage of the opportunity to change their ethnic identities.

To verify the changes, each student's 2007 ethnicity was compared with what they reported in 2006. Nearly 8,000 students (7,918 - 16%) changed their ethnicity from what they reported last year. Those that changed were: Alaska Native/American Indian (2,096), multi-ethnic (1,757), Asian/Pacific Islander (1,672), White (1,655), African American/Black (649), and Hispanic (89). Most changes were made moving into, and out of, the multi-ethnic category (3,509 and 1,757, respectively).

Since 1998-99, the fastest growing ethnic population, percentage-wise, has been Hispanic, followed by Asian/Pacific Islander. The Hispanic ethnic group grew by 97 percent and the Asian/Pacific Islander ethnic group grew by 36 percent. Last year the roles were reversed with Asian/Pacific Islander (44%) as fastest growing followed by Hispanic (29%).

Since last school year, the ethnic minority student population has increased by seven percent and the White student population has decreased by eight percent. These changes are shown in the Historical Student Membership Composition graph (Chart 2). Looking at student numbers, the White student group decreased by 2,109 students this year when compared to last year, while the ethnic minority group increased by 1,543 students. The largest numerical gain in an ethnic minority category this year, over last year, was in multi-ethnic, which increased by 2,268 students.

Chart 3 shows student ethnicity or race by program type. At 59 percent, Special Services program has the largest population of ethnic minorities, followed by Elementary Education at 53 percent. Ethnic minorities make up 50 percent of

students in the Middle School program. The High School and Other Secondary programs have the smallest ethnic minority population at 46 percent and 42 percent, respectively. The ethnic minority populations at the secondary levels are increasing as elementary students move into these levels.

The attached series of tables and graphs on District student ethnic composition represents membership numbers as of October 31, 2007.
